

air booster

The Air Booster 300 is an in-line amplifier that is used in conjunction with the vehicle cradle. This device is connected in-line between the vehicle cradle and external vehicle antenna on top of the vehicle. The Air Booster provides a 'boost' of the signal up to 3 watts. The Air Booster also comes with an optional GPS receiver.

Part Number 47-0086-001 (for use w/SB350 radios)	List Price \$449.00
Part Number 47-0086-002 w/GPS (for use w/SB350 radios) .	List Price \$999.00
Part Number 46-0098-001 (Magnetic Mount)	List Price \$105.00
Part Number 46-0098-002 (Permanent Mount)	List Price \$105.00

antennas and mounts

These antennas and mounts provide maximum radio performance for Itronix vehicle-mounted wireless computers.
