Itronix, the company that invented rugged, wireless computing presents GoBook™

The GoBook is the only rugged notebook to combine advanced PC technology, integrated RF communications and legendary toughness, at an affordable price. The GoBook is the most fully-featured rugged notebook computer in its class. Innovations include Itronix' exclusive CRMA™ user-upgradeable wireless communications. CRMA protects your hardware investment—my making the GoBook upgradable to 3G wireless technologies. Beyond enhanced wireless capabilities, the GoBook meets military standards for ruggedization, has multiple data input options, and features an outdoor-viewable ColorVue® touchscreen display.

Itronix partners with the best industry leaders in wireless, peripherals and software delivery to integrate solutions customized-designed to solve your field force computing needs. Itronix iCare™ service and support programs lead the industry in successfully deploying and maintaining sophisticated mobile computing systems.

Maximize the success of your mobile computing investment with the Itronix GoBook™.
